

IWSSP 2008

International Workshop on Stellar System Physics

Leading Topic: Interstellar Medium

April 8-15, 2008, Brno, Czech Republic

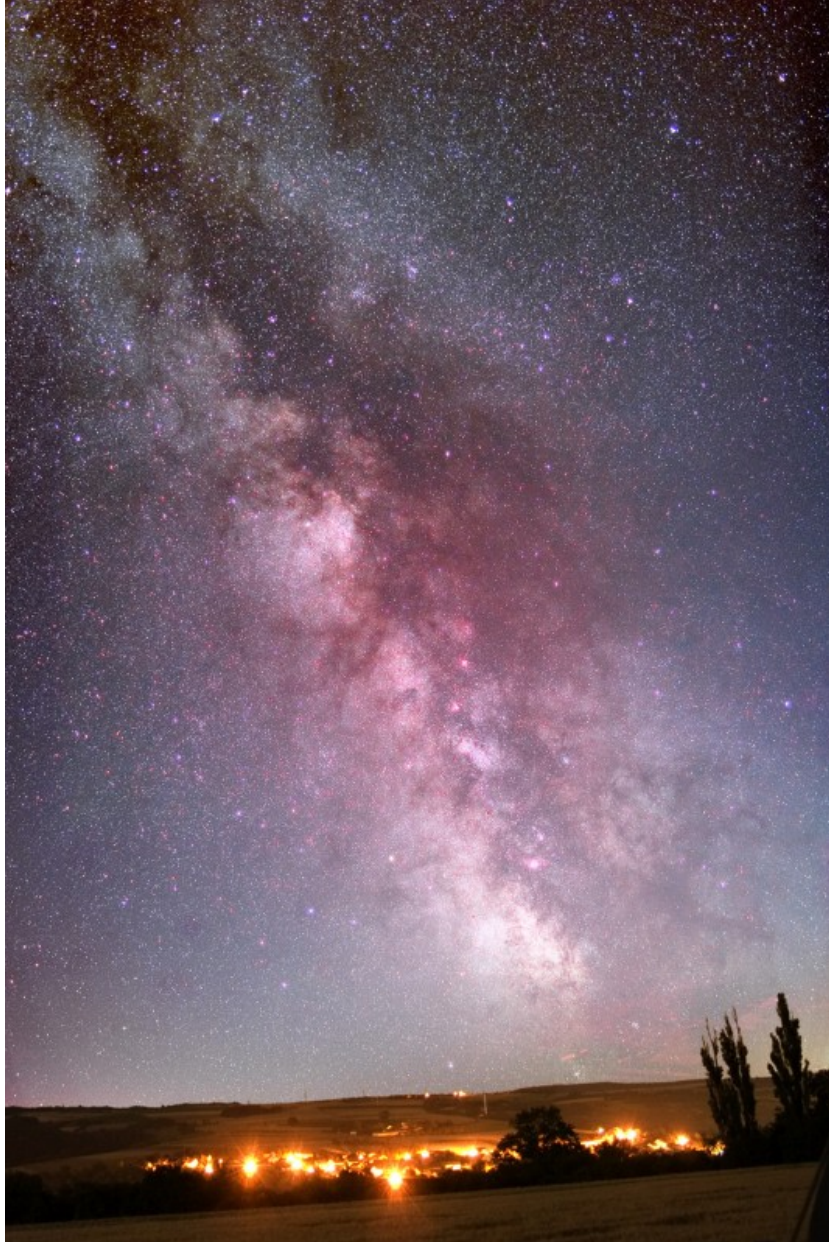

Why International?

- If you look at your badges, you can see more than one nationality.
- All invited speakers come from the countries outside Czech Republic.

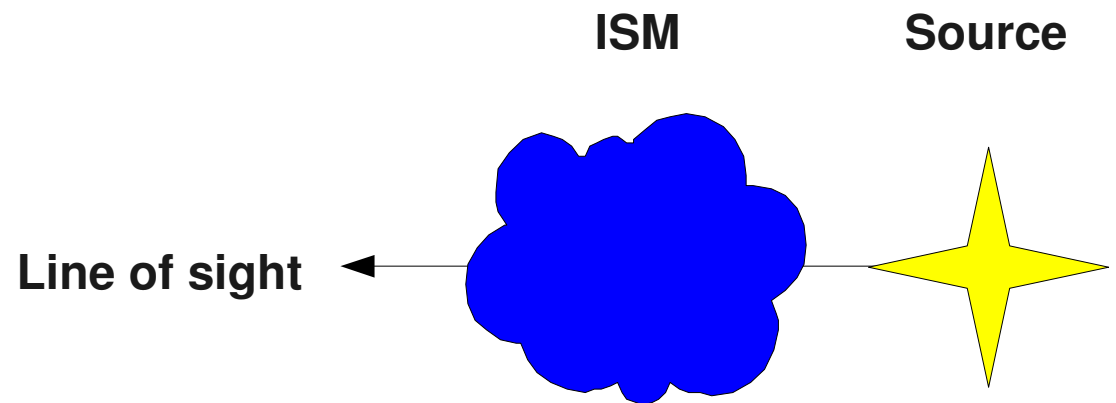

Is it real world or an exercise?

- IWSSP has its Organizing Committee
- IWSSP has its official programme
- IWSSP hosts international participants
- IWSSP includes coffee breaks
- IWSSP includes social events
- IWSSP will have proceedings
- **... however, it is just an exercise**

Why Interstellar Medium?

- ISM is basically the mess between source of light and an observer

Because it's so beautiful!

Infrared Astronomy

ESO NTT, La Silla

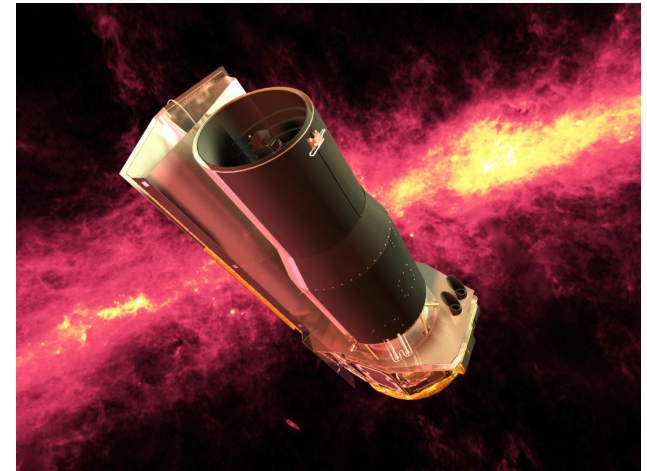

NASA IRTF, Mauna Kea

ESO VLT, Cerro Paranal

Spitzer

Enjoy the Workshop!
